CAMPER VANS BY AMF-BRUNS FREIZEITMOBILE

Advanced functionality. Proven security.

Perfectly protected on all journeys - we are the only provider on the market to guarantee TÜV-certified safety standards. Also quality and care are our top priorities when it comes to converting.

The Smarttourer

Smart. Safe. Smarttourer - With us, everyone can realize their own dream of van life in an individual way. From complete or partial conversions to individual components. The customer decides what best suits his needs!

We currently offer the complete conversion for the following vehicle models:

- » Ford Tourneo Custom V710
- » Volkswagen New Transporter

PremiumPartner
of Volkswagen Commercial Vehicles

We are also constantly developing further attractive conversion solutions and consistently expanding our portfolio.

Smartfloor

Quick, easy, flexible & safe - The Smartfloor aluminum system floor allows a quick and flexible interior design. The Smartfloor consists of four rails as standard. The rails can be used to securely attach various components, such as the sleeping/seating bench, additional individual seats, as well as wheelchairs, motorcycles and much more. The Smartfloor meets the high requirements of 76/115 EEC for M1 approved seats in vehicles of all makes. In combination with approved quick-release fasteners and the corresponding M1-approved seats, the system floor easily withstands tensile forces of approx. 3,500 daN per seat.

Smartfloor Revolution

A world first in the camper van segment -

The patented Smartfloor Revolution is made of a high quality XPS panel, which is processed in our factory with the latest technology, the highest precision and absolute care.

What does the new Smartfloor Revolution offer?

- » Maximum time savings during installation
- » The world's lightest system floor
- » Optimum acoustic and thermal insulation
- » Smooth running Smartseats and Smartbenches
- » Guaranteed parallelism of the aluminum rails

Smartbench

Secure seating. Restful sleep. The Smartbench offers comfortable space for the whole family in everyday life and can be converted into a comfortable bed for traveling. We offer the Smartbench in various designs and sizes, for example as a 2-seater or 3-seater bench. The Smartbench can be installed in any commercial vehicle.

Each seat is equipped with shoulder belts to ensure that all occupants are optimally protected. Isofix is also standard so that child seats can also be fitted with maximum safety.

An intuitive and easy-to-use folding system converts the practical bench seat into a comfortable sofa bed. The length of the reclining surface is approximately 190 cm. The Smartbench can be optionally equipped with a spacious storage drawer, a practical fridge drawer or versatile sports and travel bags.

Available widths:

- » 2-seater bench - 860 mm, 970 mm, 1120 mm
- » 3-seater bench - 1180 mm, 1260 mm, 1440 mm, 1500 mm

Smartswivel

Whether it's a short trip with the family or a long weekend with friends - having breakfast together in the camper van in the morning is simply a must. Our Smartswivel is the key to a new level of travel comfort and transforms even the smallest camper van into a practical space miracle.

Advantages & further options

- » Fits original driver and passenger seats
- » Very flat design, easy to turn
- » High quality steel for maximum stability
- » TÜV approved according to ECE M1 and N1 guidelines
- » Available for different car models
- » Swivel can be rotated while seat is in use
- » Handbrake adjustment with cover
- » Handbrake adjustment without cover

Smartseat

Our Smartseats stand for safety and the highest quality standards. All models have been tested and approved according to the latest UN/ECE regulations for M1 and M2 vehicles. This includes ECE R14, R16 and R17, which are part of the framework directive 2007/46/EC. They have also been tested in combination with the Smartfloor system floor. In terms of design, materials and comfort, our seats leave nothing to be desired.

For the Smartseats M1 we have different seat bases in our range. Seats with Smartleg offer maximum flexibility in combination with the Smartfloor aluminum system floor.

Thanks to an aluminum double rail, the Smartseats can also be easily and safely retrofitted in almost any vehicle.

Smartkit

The Smartkit “Do It Yourself” furniture sets are the perfect solution for those who want to customize their Camper Van on their own. Designed specifically for Volkswagen T5 and T6 vehicles, these lightweight furniture modules allow you to transform your van into a cozy, functional living space.

The Smartkit includes a cupboard and kitchen module that are easy to install and can be customized to fit your van’s layout. With its clever design, it gives you the freedom to create your own unique van life experience without complex installations. The lightweight nature of the furniture also ensures that your van stays efficient and functional while still offering all the essentials you need for a comfortable trip.

What are the advantages of converting the camper van yourself?

Converting a camper van yourself allows for maximum individuality – you decide what your mobile home should look like. Prefabricated furniture modules, such as the Smartkit, make DIY conversions even easier and, thanks to the detailed assembly video, can be done by any DIY enthusiast. Pre-developed modules that fit perfectly and are easy to assemble. This not only saves you time, but also money – without compromising on quality and comfort. Whether for weekend trips or long journeys: With a clever conversion, you can create your own personal recreational vehicle.

Why are the VW T5 and VW T6 such popular camper vans?

The Volkswagen T5 and T6 models have been classics among camper vans for years. Their well thought-out space concept, robust technology and large community make them the ideal basis for the vanlife dream. Thanks to their dimensions, they are easy to use in everyday life – and can be transformed into a cozy home on wheels at the weekend. The Smartkit was specially developed for these models and fits perfectly into the existing vehicle structure.

Ready-made furniture modules vs. self-build - which is better?

At first glance, self-built camper van furniture seems creative and cost-saving – but in practice, many challenges lurk: incorrect dimensions, heavy material or insecure fastenings can become a problem. Manufacturers of ready-made furniture for camper vans have specialized in the use of furniture in camper vans. They are subject to strict guidelines and must ensure that the furniture modules they sell are safe for use on the road. The Smartkit offers a safe, lightweight and tested solution. The high-quality materials and well thought-out design ensure stability while driving and impress with their low weight – two key aspects when fitting out your own camper van.

Recommended optional extras:

- » Refrigerator – Vitrifrigo (42L)
- » Sink – Dometic SNG 4237
- » Stove – Alpen Camping Mount Everest
- » Fresh water tank – Aplast Tank (65L)
- » Gray water tank – Reimo (27L)

YOUR ADVENTURE IS GUARANTEED.

Plan your conversion with us - find out more on our website!

Bicycle mount

Travel with your bike to the places you've always wanted to explore!

Our bicycle mounts offer you many advantages that are specially tailored to the needs of cyclists and bike enthusiasts. The bicycle mounts allow you to transport your bike safely and stably inside the car - whether in a van, camper & Co.

The combination of frame and front wheel or fork mount reliably secures your bike, effectively preventing damage while riding.

Sport- and travelbag

Discover the ideal sports and travel bag for all your adventures!

Our bags not only offer plenty of storage space, but also an innovative solution for perfect organization in your camper van. Thanks to the lightweight rail system, the bags can be easily mounted under the Smartbench, which not only saves you space, but also means the bag is always within easy reach.

Movable table

A changing world. It's not just our world that is constantly changing.

We are also evolving every day. Whether everyday life, family, hobbies or travel: To combine all of this, we need a vehicle that adapts flexibly to our needs.

Our movable table is the ideal solution for this. It can be folded up to save space, moved effortlessly and even removed completely from the vehicle if required. Perfect for anyone who appreciates maximum flexibility in their camper.

3-Point belt bracket

Secure. Flexible. Perfect fit. With a seat belt support, you can easily create additional seats in your vehicle - without compromising on safety! Depending on the model, you can design your 2-seater bench seat in the second or third row exactly as you want it.

We offer the right frame for your project: A robust construction with integrated 3-point belts, which is bolted to the vehicle with a corresponding mounting plate or special aluminum rails. This guarantees the necessary stability for a safe ride.

After professional installation in your vehicle, you can start with the floor structure, floor covering and upholstery. You decide on the design - we supply a large selection of high-quality fabric covers for the optional upholstery.

To ensure that your passengers travel safely, you should observe the following rules:

- » Seat belts are mandatory: All seats used during the journey must be fitted with automatic three-point seat belts.
- » Head restraints for more safety: Seats facing in the direction of travel must have head restraints. They are also recommended for rear-facing seats.
- » No transverse seats: Sitting parallel or perpendicular to the direction of travel is not only unsafe, but is now also prohibited.
- » Keep an eye on the payload: Check the permissible total weight and the maximum payload of your vehicle.
- » Registration in the vehicle documents: Only officially registered seats may be used for the ride.
