Smartbench Comfort

Secure seating. Restful sleep.

The Smartbench offers comfortable space for the whole family in everyday life and can be converted into a comfortable bed for traveling. We offer the Smartbench in various designs and sizes, for example as a 2-seater or 3-seater bench. The Smartbench can be installed in any commercial vehicle.

Each seat is equipped with shoulder belts to ensure that all occupants are optimally protected. Isofix is also standard so that child seats can also be fitted with maximum safety.

An intuitive and easy-to-use folding system converts the practical bench seat into a comfortable sofa bed. The length of the reclining surface is approximately 190 cm. The Smartbench can be optionally equipped with a spacious storage drawer, a practical fridge drawer or versatile sports and travel bags.

Available widths:

- » 2-seater bench - 860 mm, 970 mm, 1120 mm
- » 3-seater bench - 1180 mm, 1260 mm, 1440 mm, 1500 mm

Advantages of the Smartbench Comfort

- » Installation that fits your needs: Choose between two mounting options – Fixed or Sliding.
- » Top safety for the little ones: Compatible with ISOFIX child seats.
- » Three-point shoulder seat belts and adjustable headrests ensure additional comfort and protection.
- » Custom design: The Smartbench can be perfectly tailored to your style – choose from a variety of fabric covers and even have the headrests embroidered with your initials.
- » TÜV-certified for tested safety and quality.

Accessories for the Smartbench Comfort

Sport- and Travelbag

Discover the ideal sports and travel bag for all your adventures!

Our bags not only offer plenty of storage space, but also an innovative solution for perfect organization in your camper van. Thanks to the lightweight rail system, the bags can be easily mounted under the Smartbench, which not only saves you space, but also means the bag is always within easy reach.

Storage Drawer

An optional storage drawer provides extra space beneath your Smartbench. Whether it's pillows, bedding, or other gear for everyday use or your next camping trip - everything has a secure place.

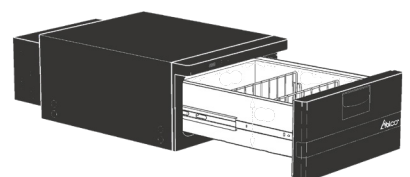

Cooling Drawer

This powerful 24-liter refrigerator keeps your drinks cold and your food fresh, even on hot days. Premium insulation combined with a highly efficient compressor ensures fast and reliable cooling performance.

The cooling drawer is versatile and can be powered via either DC (12/24V) or AC (100–240V). An integrated multi-level battery protection system reliably safeguards your vehicle's battery, while overvoltage protection absorbs sudden power surges.

Operation is intuitive via a modern LED control panel on the unit or conveniently via Bluetooth 5.0 using the app (Android/iOS).

Practical drawer dividers help you organize your beverages and food efficiently, keeping everything clearly arranged and easy to access.

Every seat counts: Wireless seat recognition system for Smartbenches & Co.

A display on the dashboard informs the driver about the status of the vehicle seats in the passenger compartment when the ignition is switched on. The display shows how many seats are registered in the system, how many are occupied and whether the occupants are wearing their seat belts.

In order for the seats to be registered in the SecurePlus system, the Smartseats must be equipped with a Bluetooth transmitter and connected to the system.

SecurePlus ensures maximum transparency and actively helps to ensure the safety of all occupants - intuitively, reliably and in real time.

ADVANTAGES OF SECUREPLUS

- » Wireless Bluetooth connection
- » Two display variants with up to 9 or 20 vehicle seats
- » Visual and acoustic signal (in accordance with ECE R16)
- » Function when ignition is switched on
- » Power supply of the display via the car battery
- » Power supply of the Bluetooth transmitter in the seat with battery (button cell)
