The Smartseat

Safely on the road with your favorite people.

Our Smartseats stand for safety and the highest quality standards. All models have been tested and approved based on the latest UN/ECE regulations for M1 and M2 vehicles. This includes ECE R14, R16 and R17, which are part of the framework directive 2007/46/EC. They have also been tested in combination with the Smartfloor system floor. Our seats also leave nothing to be desired in terms of design, materials and comfort.

You can choose from four different Smartseat models:

SMARTSEAT CAMP BASIC

- » Adjustable backrest & ISOFIX
- » 3-point seat belt
- » Height-adjustable headrest
- » Optional: Armrest (left / right)
- » Seat width (in mm): 422

SMARTSEAT CAMP PREMIUM

- » Adjustable backrest & ISOFIX
- » 3-point seat belt
- » Height-adjustable headrest
- » Armrest left & right
- » Seat width (in mm): 482
- » Seat bases (in mm): 110, 170, 190, 230, 260, 290, 320

SMARTSEAT CAMP RV & CAMP CARE

- » Backrest can be fully folded forwards (**Camp RV**) or backwards (**Camp Care**)
- » 3-point seat belt
- » Height-adjustable headrest
- » Optional: armrest (left / right) & ISOFIX
- » Seat width (in mm): 422
- » Seat bases (in mm): 110, 170, 190, 230, 260, 290, 320

All Smartseat models are available in a variety of fabric covers, optionally swivel and can be configured with a left or right seatbelt position - **we would be happy to advise you!**

Smart retrofitting - fast, safe and secure!

All of our Smartseats can also be installed in vehicles without a Smartfloor system. Thanks to the durable aluminum double-rail system, the seats can be integrated quickly, easily, and securely into almost any vehicle. This gives you maximum flexibility in vehicle configuration, allowing you to add additional seating exactly in line with your specific requirements.

Additional retrofittable Single Seats

Retrofittable single seats – Enhanced flexibility for your vehicle conversion.

Whether a camper van, panel van, or bespoke motorhome: our retrofittable single seats allow you to create additional seats exactly where you need it. The integrated aluminum double-rail system ensures quick and secure installation within the vehicle floor. A key advantage: the remaining floor structure can be seamlessly installed around the rail system, enabling the seat to be perfectly integrated into your individual conversion concept.

You can choose from four different seat models:

ADVENTURE

- » Wide, ergonomic seat surface
- » Adjustable backrest
- » Backrest fully foldable forward
- » Height-adjustable headrest
- » Armrests on both sides
- » ISOFIX

COMFORT

- » Wide, ergonomic seat surface
- » Adjustable backrest
- » Premium, high-quality upholstery for superior comfort
- » Armrests on both sides
- » ISOFIX

RANGER

- » Wide, ergonomic seat surface
- » Adjustable backrest
- » Modern design
- » Armrests on both sides
- » ISOFIX

TAXI

- » Lightweight and space-saving construction
- » Adjustable backrest
- » Backrest fully foldable forward
- » Armrests on both sides
- » ISOFIX

Suitable Seat Bases for every seat

Our V-Legs – secure stability in any vehicle.

Our V-Legs are available in various versions for different rail spacings. The robust lightweight construction has been tested by the RDW on Smartfloor system floors in combination with M1 and M2 seats.

Four variants are available: Sliding (adjustable), Sliding & Rotating (adjustable and rotatable), Fixed (fixed) and Fixed & Rotating (fixed and rotatable).

Every seat counts: Wireless seat recognition system for Smartseats & Co.

A display on the dashboard informs the driver about the status of the vehicle seats in the passenger compartment when the ignition is switched on. The display shows how many seats are registered in the system, how many are occupied and whether the occupants are wearing their seat belts.

The right Fabric Upholstery for every style

We currently offer a selection of six high-quality fabric upholstery in our lineup. If you're looking for something truly special, we can also create custom fabric upholstery tailored to your preferences. For example, the upholstery can be made to match the design of your vehicle's front seats - for a harmonious and unique overall look.
